ACUTE LEUKEMIAS XX

Biology and Treatment Strategies

Munich, Germany - March 14-17, 2027

Dear Friends,
Dear Colleagues,

We are happy to invite you to the 20th anniversary of the international symposium

ACUTE LEUKEMIAS XX (ISALXX)

the premier hematology event in spring 2027 for all healthcare professionals active in the field of acute leukemias.

This symposium has a more than 40-year tradition and is considered as one of the most valuable meetings in acute leukemias. Don't miss this opportunity to learn about the latest advances in pre-clinical and clinical leukemia research from our panel of top international experts. We also invite you to contribute your own scientific abstract, highlighting your most recent findings and updates.

The symposium is taking place under the new chairmanship of Karsten Spiekermann and Klaus Metzeler together with our honorary chairman, Wolfgang Hiddemann, **in Munich from Sunday, March 14 until Wednesday, March 17, 2027**, in-person only, and is addressing all healthcare professionals active in the field of acute leukemias

These areas will be covered by invited speakers representing the leading institutions and research groups around the world. As always, there will be no parallel sessions, ensuring participants can attend all lectures without overlap. **Satellite Symposia and Meet-the-Expert Sessions** will provide additional opportunities to discuss advances and perspectives of basic science and new treatment strategies.

Two **sessions for unsolicited abstracts** – a poster session and an oral session showcasing the best submitted abstracts (“Best of Free Contributions”) – will additionally allow all participants to present their own research data and discuss their findings with the most renowned scientists and researchers in the field of acute leukemias worldwide.

We look forward to welcoming you in-person in Munich in March 2027.

Yours,

Prof. Dr. med.
Karsten Spiekermann
Chairman

Prof. Dr. med.
Klaus Metzeler
Chairman

Prof. Dr. med.
Wolfgang Hiddemann
Honorary Chairman

MAIN TOPICS

MS I: Basic Biology of Acute Leukemias I

MS II: Basic Biology of Acute Leukemias II

MS III: Novel Markers for Diagnosis and Prognosis of AML

POSTER EXHIBITION

MAIN PROGRAM

16:00-18:00 MS V: ON-SITE Poster Viewing and Discussion Session

Posters will be presented on the **Upper Floor** of the symposium venue (Floorplan Level 2).

Use this forum for stimulating discussions on a great variety of the most current topics in the field of Acute Leukemias and get a deeper insight into various subject areas.

As always, a great variety of cheese specialties and a glass of wine will be offered during the session.

All poster presenters are expected to participate in MS V to allow all participants and members of the Poster Award Committee to talk to the presenters and have a personal scientific exchange about their poster(s).
