

## International Symposium ACUTE LEUKEMIAS XIX Munich, March 16 – March 19, 2025

Klinikum Großhadern, Hörsaaltrakt  
Marchioninstraße 15, 81377 München

---

### Restrictions on local public transport between Munich city center and Munich Airport and Klinikum Großhadern

Important information for all **ISALXIX** participants who want to make use of **the public transport connections from Munich airport or Munich city center to Klinikum Großhadern.**

The second phase of the renovation of the U6 line between Implerstrasse and Großhadern hospital (KLINIKUM GROSSHADERN) is starting on **March 10, 2025**. Consequently, not only the main direct subway connection U6 between Marienplatz and KLINIKUM GROSSHADERN is interrupted. Also, the direct access from the subway station U6 to the Main Entrance of the hospital Klinikum Großhadern will be completely closed from the U6 subway exit. The renovation measures are starting on March 6th, 2025, and will probably not be finished before the end of the year.

**Our advice: Please plan enough time for your travel between your hotel and the symposium site Klinikum Großhadern!**

**Following public transport alternatives are available, amongst others:**

**If you choose the following 2 alternatives, you will enter Klinikum Großhadern from the hospital entrance side. Signs will be leading you from there inside the hospital via “Besucherstrasse” to the lecture hall wing.**

**Arrival by S-Bahn and bus:** Either by bus 56 via the Pasing S-Bahn and exit at stop “Klinikum Ost” - from there unrestricted access to the main entrance to the hospital.

**Arrival by replacement bus:** Take replacement bus **X6** which goes directly to the “Klinikum Ost” stop via Donnersberger Brücke S-Bahn station or Heimeranplatz.

**If you want to enter Klinikum Großhadern directly from the main entrance of the lecture hall wing = direct access to ISALXIX – you should take the following alternative:**

**Arrival by replacement bus X6 and bus 266:** Take replacement bus X6 and exit at the final stop “Klinikum Großhadern”. Then change to bus 266 in the direction of Planegg one or two stops to the “Klinikum Nord” stop. Exit at “Klinikum Nord” which is directly opposite the main entrance of the lecture hall wing.
